Specification for the migration of legacy data to the Data Futures data model.

Migration.StudentCourseSession.Course.Qualification.AwardingBodyRole

Version 0.1.0: Revision history at foot of document

Overview

This document provides the specification for the migration of legacy data into the Data Futures AwardingBodyRole entity, a sub-entity of the Qualification entity.

This is one of a series of specifications produced to translate or map legacy data submitted against the CXX051/54 collections into the Data Futures data model (056). The data migration activity will allow quality assurance checks to be run on the first Data Futures collection in 2022/23 for data submitted by providers.

Entities covered in this specification

Entity name	Entity description
Migration.StudentCourseSession.Course.Qualification.AwardingBodyRole	Provides information on awarding body roles applicable to the Course qualification.

Migration.StudentCourseSession.Course.AwardingBodyRole - This sub-entity of StudentCourseSession.Course records the awarding bodies of a Course qualification.

These entities are only created for students within the migrated population (see Z_POPMIGRATION). This applies to both the Student record (051) and the Student Alternative record (054).

Depend upon fields

- Provider.Course.AWARDBOD

Additional information

Multiple awarding bodies may be associated with the same course qualification.

Where labels, codes or granularity differ for a migrated field, a value mapping table is provided following the Field mapping table below.
Please be aware that whilst field labels may be the same for legacy and Data Futures, the coverage may differ. The Data Dictionary within the Data Specification provides full lists of Data Futures valid entries and coverage of the data.

Field mapping

Data Futures field	Data Futures field	Legacy field(s)	Applicable to	Migrated?	Direct mapping?
AWARDINGBODYID	Awarding body identifier	AWARDBOD	054, 051	Y	N

Value mapping tables

For those fields which have been migrated but are not a direct mapping (i.e., labels, codes or granularity differ), tables listing the mapping of the valid values are provided below.

Legacy values which have not been mapped are still listed, marked 'Not mapped'.

1:1 code mapping

1:1 code mapping is 'Y':

There is only **one** legacy code mapped to **one** 056 code. In some cases, the codes will be the same, e.g. Student.SDEPEND in legacy 01 maps to 01 in Migration.Student.STUDEP. In others they are different codes, Student.ETHNIC '22' maps to '120'. Similarly, the labels may remain the same or differ.

Even for 1:1 code mappings, if the label differs substantially between legacy and 056, the migrated data label will account for both labels to avoid any misinterpretation, particularly for personal characteristic fields e.g. if Legacy 99 'Not known' is a 1:1 mapping to 99 'Not available', then the migrated data label may state 'Not available/ Not known'.

As an exception to this, where 'Information refused' is mapped to 'Prefer not to say', the migration label will state only 'Prefer not to say'.

1:1 code mapping is 'N':

This can be a result of legacy codes either being combined in an 056 code, or split across multiple 056 codes depending on additional fields e.g. some ethnicity codes differ by the provider country and so have been mapped to separate 056 codes accordingly.

As with the 1:1 code mappings**,** if the label differs substantially between Legacy and 056, the migrated data label will account for both labels to avoid any misinterpretation, particularly for personal characteristic fields.

1:1 code mapping is 'N/A':

This notation is used where the code is new for Data Futures (056) and has no legacy equivalent. These codes are only listed for completeness. Although the new codes should not appear in Migrated data, the 056 code and label values are still listed within the Migrated columns and the 056 label column is marked 'New code'.

Awarding Body

Legacy Instance.Course. AWARDBOD	Legacy. Label	Migration.Qualification. AwardingBodyRole. AWARDINGBODYID	Migration Label	056 Label (where different to Migration)	1:1 code mapping
Valid UKPRN	Name of provider	Course.AWARDBOD	Name of provider		Y
1	Pearson Edexcel	5010	Pearson Edexcel		Y
2	SQA	5027	SQA		Y
3	Other UK based awarding body	5035	Other UK based awarding body		Y
4	Other non-UK based awarding body	5032	Non-UK based awarding body		Y

Migrated data description - Course.Qualification.AwardingBodyRole

Entity	Field name	Description
Migration.Provider.	UKPRN	Provider – UKPRN
Migration.Provider.	INSTID	Provider - HESA identifier (key)
Migration.Student.	SID	Student identifier (key)
Migration.Engagement.	NUMHUS	Engagement number (key)
Migration.StudentCourseSession.	SCSESSIONID	Student course session identifier (key)
Migration.StudentCourseSession.Course.Qualification.AwardingBodyRole	AWARDINGBODYID	Awarding body identifier (key

Revision history

2022-02-14   0.0.1   Reformatting of value mapping table, slight restructure and re-wording of document and reference to Student Record and Student Alternative Record changed to 051 and 054 respectively.

2022-02-23   0.1.0   Links to coding manual updated to 21056, 20051 and 20054. Where AWARDBOD is a valid UKPRN, retain this UKPRN in the mapping.

2022-07-21   0.1.1   Added extra text on 1:1 mapping to align with other documents. Hyperlink and reference to coding manual removed under 'Additional information'.
